ACE Life introduces package product for family

ACE Life Insurance Co. has launched the Family Universal Life, a new product that enables all members of a family to be insured with just one policy, which helps insure relatives of the contract buyers but with smaller fee than buying a new contract. Lam Hai Tuan, CEO of ACE Life Vietnam, said providing increased benefits to existing policyholders without a medical check-up would increase risks for the insurer but underscore its strong commitment to the interest of customers. *(Photo: Thuy Trieu)*
